

**Caring  
& Sharing**

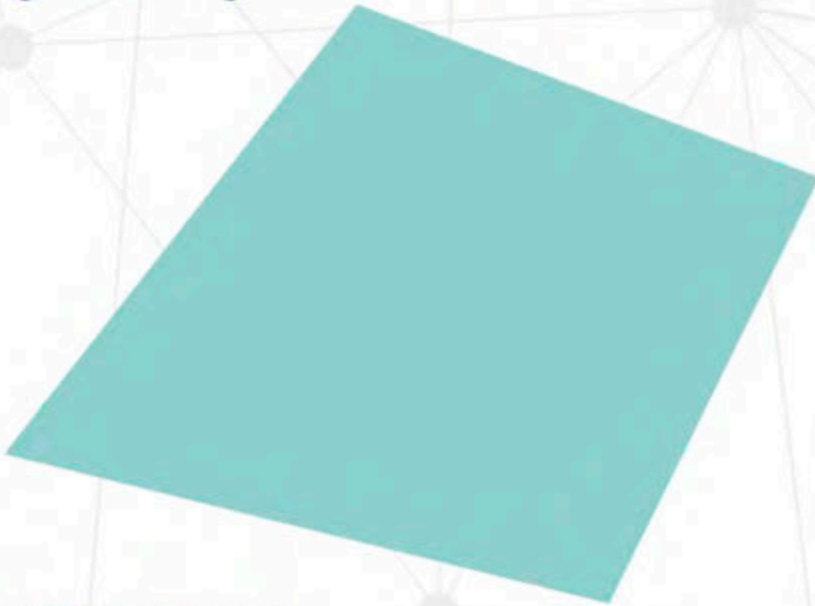

**Annual Report 2014**  
**Electricity Generating Authority of Thailand**

3D experience here

With the mission in strengthening the energy security and the care for the environment and community for more than 45 years, EGAT's power generating sources all over the country are not only the place to generate and transmit electricity but also the center of knowledge and technological development in energy and environment with participation of the community and society.

**EGAT has the pleasure of opening its power plants to all visitors for energy learning and sharing.**

## INSTRUCTION

1 Download

“JUNAIO”

via App Store or Google play.

2 Scan this QR code with Junaio.

3 Scan this icon to get the 3D experience.

4 You can get the 3D experience at these pages.
